Seminar: *Psychological Services & Sheriffs' Offices: How We Can Help You*

Description: Come and meet the board of the psychological services section of NSA, learn about all of the services we offer, resources we have, and how we can help your office in a variety of ways (i.e., hiring, promotions, leadership development, operational psychology, critical incidents, employee wellness, inmate mental health, peer support). This will be an interactive session that will focus on describing what we offer and answering the questions you have about all the various aspects of the work we do and how we can support your office.

Speakers: Kimberly Miller, Ph.D., Fort Collins, CO., Nancy Bohl-Penrod, Ph.D. San Bernardino, CA, Troy Rodgers, Psy.D. Albuquerque, NM, Jim Mann, Ph.D., Robert J. Cipriano, Jr., Psy.D. Pembroke Pines, FL, David Black, Ph.D., Grant McDougall, Ph.D. Gainesville, FL, and Sheriff Royce Cole, Webster Co., MO

Room: L005/L009

8:30 AM - 9:30 AM

Seminar: *FBI Next Generation Identification System*

Description: Beginning in July 1999, the CJIS Division operated and maintained the IAFIS, the world's largest person-centric database. The IAFIS provided automated tenprint and latent fingerprint searches, electronic image storage, electronic exchanges of fingerprints and responses, as well as text-based searches based on descriptive information. Because of growing threats, new identification capabilities were necessary. Advancements in technology allowed further development of biometric identification services. The CJIS Division, with guidance from the user community, developed the NGI System to meet the evolving business needs of its IAFIS customers. Building on the foundation of the IAFIS, the NGI brought the FBI's biometric identification services and criminal history information to the next level. The NGI system improved the efficiency and accuracy of biometric services to address evolving local, state, tribal, federal, national, and international criminal justice requirements. New capabilities include a national Rap Back service; the Interstate Photo System; text-based searches for images of scars, marks, and tattoos; fingerprint verification services; more complete and accurate identity records; and enhancements to the biometric identification repository. In September 2014, the CJIS Division launched the final phase of NGI services, thus replacing the remaining IAFIS functionality.

Speaker: Gregory E. Scarbro, Unit Chief, FBI, Clarksburg, WV

Room: L007/L008

8:30 AM - 9:30 AM

Seminar: *Dialogues with Sheriffs with University of Rochester Researchers On How to Improve Health Outcomes for People Coming Out of US Jails*

Description: Our goal is to better understand how we can work with Sheriffs across the US to improve the physical and mental health of individuals reentering from incarceration. We will conduct one focus group with a group of Sheriffs as well as several individual interviews, asking various questions and ideas that we have in order to assess what would work best for them regarding starting re-entry health activities prior to exiting jail. We would provide compensation to the Sheriffs who participate in the focus groups of a \$20 gift card, plus snacks at the focus groups. We would have all 4 focus groups at the same time, so each Sheriff who participates would come to just one group.

Speaker: Diane S. Morse, MD, Associate Professor of Psychiatry and Medicine, University of Rochester School of Medicine, Departments of Psychiatry and Medicine, Director, Women's Initiative Supporting Health, Center for Community Health, Rochester, NY

Room: L006

8:30 AM - 9:30 AM

Seminar: *Standards of Care: Mental Health in Our Jails and Prisons...Now What?*

Description: Implementing mental health service standards within correctional facilities can break down barriers between administrative staff and individuals with mental illness, while also helping achieve peak organizational performance. First-hand experiences from Speakers and the audience will shape the conversation and develop potential avenues for advocacy.

Speakers: Jim Martin, Accreditation Specialist, National Commission on Correctional Health Care (NCCHC);

Tracey Titus, Vice President of Accreditation, NCCHC, Chicago, IL

Seminar: Securing Our Nation's Borders

Description: This seminar is designed to convey a greater understanding of existing challenges and tools immediately available for law enforcement in responding to threats in the air and maritime domains, with an emphasis on CBP's Air and Marine Operations Center (AMOC). The AMOC is an international, multi-domain federal law enforcement center that has been focusing on suspicious general aviation and non-commercial

maritime activities in the Western Hemisphere for over three decades. AMOC conducts air and marine surveillance operations, and provides coordination to law enforcement officers performing interdiction missions and other federal, state, and local law enforcement agencies conducting criminal investigations. AMOC also coordinates operations with North American Aerospace Defense Command (NORAD) and the governments of Mexico, Canada and the Bahamas. Utilizing sophisticated technology, AMOC detects, identifies, tracks and coordinates the interdiction of suspect aviation and maritime threats at the national and international levels.

Speaker: Brian Paulsen, Acting Director, DHS-U.S. Customs and Border Protection - Air and Marine Operations, Washington, D.C.

Room: L005/L009

Description: The U.S. Marshals Service is often asked to conduct security assessments of local courthouses.

This seminar will provide attendees training and information on how they can conduct their own assessments.

Based off procedures defined by the Interagency Security Committee (ISC) guidelines, this presentation will provide recommendations ranging from lighting, barriers, cameras, parking and much more.

Speaker: Jimmy Johnson, Judicial Security Inspector, United States Marshals Service, Anchorage Alaska

Room: L007/L008

9:45 AM - 10:45 AM

Seminar: Financial Exploitation of Older Adults: Trends, Tips & Tools

Description: Financial crimes can devastate older adults and drain their savings. This session focuses on mass marketing frauds that cause the greatest loss to older adults – like phony sweepstakes, tech support, and imposter scams – and best practices for working with federal and state law enforcement partners to build cases and win convictions. Discussion will include:

- Recent trends in cybercrime and telemarketing fraud
- Warning signs of financial exploitation
- Identifying and collecting critical evidence
- Suspicious activity reports (SARs), the Consumer Sentinel Network, and other free investigative tools
- Free resources to help you help older adults recognize, talk about, and avoid financial exploitation.

Speakers: Seena Gressin, Attorney, Federal Trade Commission, Washington D.C., Brenda Donahue, U.S. Department of Justice, Washington, D.C., Tamara Sieckman, Consumer Financial Protection Bureau, Washington D.C.

Room: L013

Sponsored by Body Worn Utility

Description: This seminar will cover all aspects of the ideal video evidence ecosystem to include the capture, transfer and management of video evidence. Redaction, sharing and releasing of video evidence will also be discussed in detail along with a close look at how cutting edge technology can be used to provide greater efficiency and officer safety.

Speakers: Mark Wood Business Manager, Chris Lindenau Chief Revenue Officer, Body Worn Utility, Decatur, GA

Room: L016

9:45 AM - 10:45 AM

Seminar: Serving Cybercrime Victims

Description: The impact of cybercrime on the economy, personal lives and our critical infrastructure is growing exponentially each year. Loss estimates are in the trillions worldwide. Two questions are not being addressed on a national level in the US. Where does a consumer or small business call to report a crime and get help? And, what coordinated resources are available from federal, state and local law enforcement and consumer protection agencies? The Cybercrime Support Network is providing a voice for the victims and building a national program to improve victim services and response for consumers and small businesses.

Speakers: Kristin Judge, CEO/President of Cybercrime Support Network, Sheriff Jerry Clayton

Washtenaw County Sheriff's Office, Michigan
Room: L006

10:00 AM – 12:00 PM

NSA Psychological Services Group

Room: L024

11:00 AM - 12:00 PM

Seminar: Disaster Preparedness: How an Effective Plan Between Custody and Health Services Can Make all the Difference

Description: Your overcrowded jail is on fire, is being evacuated, and you have injuries to treat. Do you know what to do? Thankfully, we did. This session will be conducted by first-hand accounts from the Speakers, how they did it, and how you can prepare. During this session the attendee will learn how an emergency response plan can help prepare for anything.

Speaker: Jim Martin, Accreditation Specialist, NCCHC, Chicago, IL; Tracey Titus, VP of NCCHC Accreditation, NCCHC, Chicago, IL

Room: L005/L009

11:00 AM - 12:00 PM

Seminar: National Violent Death Reporting System (NVDRS) Overview and Update

Description: The National Violent Death Reporting System (NVDRS) links information about the “who, when, where, and how” from data on violent deaths and provides insights about “why” they occurred. NVDRS is the only state-based surveillance (reporting) system that pools more than 600 unique data elements from multiple sources into a usable, anonymous database. NVDRS covers all types of violent deaths – including homicides and suicides – in all settings for all age groups.

Speaker: Dr. Janet Blair, Centers for Disease Control, Atlanta, GA

Room: L007-L008

11:00 AM - 12:00 PM

Seminar: Leadership, Culture, and Change: Perspectives from the Field on Improving Hate Crimes Investigation and Reporting

Description: No person should have to fear being attacked because of who they are, what they believe, or how they worship. Hate crimes not only destroy lives and devastate families; they also traumatize the communities in which they occur. These acts make groups suspicious and fearful of one another, and restrained from engaging in civic life or working with local law enforcement in investigating and preventing crime. This session will provide perspectives from the field on improving hate crimes investigation and reporting, while highlighting promising practices and resources.

Speakers: Travis L. Patten, Sheriff, Adams County, MS, Robert Schroeder, Assistant Chief, Louisville Metro Police Department, KY; Nazmia Comrie, Senior Program Specialist, Office of Community Oriented Policing Service

Room: L013

11:00 AM - 12:00 PM

Seminar: The Impacts of Drug Importation on Law Enforcement

Description: Legalizing drug importation from foreign nations continues to be a hotly debated topic. Various proposals have been and are being considered at the Federal level and in state legislatures. However, drug importation repeatedly has shown to be ineffective and opens the U.S. up for dangerous counterfeit prescription drugs, including fentanyl-laced counterfeit opioids. Because of the overwhelming evidence of the dangers of these proposals, the NSA passed a resolution in 2017 in opposition. This workshop will provide a deep-dive into the topics: Why does drug importation not work and produce significant unintended consequences? Why does importation result in counterfeit drugs? What are the potential risks for law enforcement from these proposals and how could importation negatively impact law enforcement?

Speakers: Sven Bergmann, Managing Partner, Venture Global, Columbus, OH; Nikki Semenza, Director, Venture Global, Washington DC

Room: L016

1:00 PM - 2:00 PM

Seminar: *LE SupplyPRO: Saving Money, Improving Operations, and Increasing Efficiency*

Description: LE SupplyPRO is the online procurement portal created for sheriffs and by sheriffs in partnership with NSA. It creates a one-stop buying experience while offering the most competitive prices possible on items from uniforms, to flashlights, to inmate goods, to cleaning products and many more. This presentation will give you an overview of how the system works, new features, new benefits and how it will help your agency!

Speaker: Lindsay Hopkins, Sr. Manager, National Sheriffs' Association

Room: L005/L009

1:00 PM - 2:00 PM

Seminar: *The Benefits of Developing a Peer Support Program*

Description: The negative climate of change surrounding the field of law enforcement today can cause a tremendous amount of work-related and family stress, which can be a serious threat to the well-being of our law enforcement personnel. Having a Peer Support program in place not only helps decrease day-to-day stress, it can also countercheck the emotional strain of critical incidents and prevent the accumulation of emotions that can lead to alcohol abuse, depression, domestic violence, and suicide. Benefits of a developing a Peer Support program include the ability to provide peers with immediate assistance, provide additional support, allow for ventilation and sharing to take place, and works in tandem with the services provided by chaplains and mental health professionals. A successful Peer Support program reduces long-term critical incident stress, turn-over and health insurance costs, worker's compensation claims, fitness-for-duty evaluations and supports supervisor referrals.

Speaker: Nancy Bohl-Penrod, Kimberly A. Miller & Associates, LLC

Room: L007/L008

1:00 PM - 2:00 PM

Seminar: *Jail Leadership's Oversight of Litigation-Resistant Mental Health Services*

Sponsored by Falcon

Description: Whether correctional vendors or community mental health providers are employed, jails are often granting the custody of their mental health services to external agencies. Reasonably lacking the clinical expertise, jail leadership assumes an offstage role in terms of mental health service execution and supervision. Jails around the nation have been exposed to costly and preventable litigation due to being ill-informed and ill-equipped to identify outdated policies and dysfunctional mental health systems. Familiarity with the essentials of a best practice mental health system allows correctional leadership to maximize the collaborative working potential with their contractors, insist on optimal service delivery, and more autonomously monitor the quality of vendor services. Attendees of this workshop will discover the lifeblood of litigation-resistant mental health services through the examination of serious litigation trends, guidelines for contract oversight, benchmarks for modernized and essential mental health services, and methods for cooperative involvement and contract enforceability.

Speakers: Dr. David Stephens & Dr. Robin Timme, Psy.D. ABPP (Forensic) Senior Expert, Falcon Inc., Newark, DE

Room: L013

1:00 PM - 3:00 PM

Seminar: *Release, Retool, Reform*

Description: Prisoner reentry has generated significant attention recently with discussions and debates surrounding local jails and the challenges with: mental illness, substance use disorder, limited employability and extensive criminal histories. This panel includes overviews from experts in their respective fields to include: Kentucky Supreme Court Justice, Michelle Keller, Commonwealth's Attorney, 16th Judicial District, Rob Sanders, Kenton County Sheriff, Chuck Korzenborn, Kenton County Jailer, Terry Carl, and President/CEO Life Learning Center, Alecia Webb-Edgington. The seminar will highlight effective reentry best

practices for addressing alternative sentencing solutions and after care programming to reduce recidivism.

Speaker: Alecia Webb-Edgington, President, Life Learning Center, Covington, KY

Room: LO20

1:00 PM - 3:00 PM

Seminar: Introduction to Dark Web Investigation

Description: This presentation is designed for investigators and management. The seminar takes an in-depth look at the Dark Web and the technology that makes it work. You will also learn about the best practices and techniques for conducting an investigation on the Dark Web.

Speaker: Christopher Diorio, FBI Special Agent, Fairfax, VA

Room: L016

1:00 PM - 3:00 PM

Seminar: Critical Incident Stress, Vicarious Traumatization (VT), and Post Trauma Stress Reactions in the Law Enforcement Professional – A Resiliency Initiative

Description: This seminar encompasses an in-depth discussion surrounding critical incident stress (acute stress reactions), Vicarious Trauma, and post trauma stress reactions (chronic). Emphasis is placed upon how such symptoms can affect law enforcement professionals and their families. The attendee will be able to identify what a critical incident is, the stress that results from such (acute stress reactions), what the indices of Vicarious Traumatization (VT) are the key differences from critical incident stress vs. chronic post trauma stress reactions, and how each can disturb our normal way of life, our beliefs and the very fabric and foundation of existence before such trauma. The attendee will be informed about the key difference between VT and Post Trauma Stress (PTS), interventions surrounding the anxiety based symptom(s) recovery process, stages of grief, trauma specifically surrounding gun violence, and the benefits of relaxation. Public Safety Professionals' (PSP) will be able to identify and potentially manage critical incident stress, VT, and chronic post trauma stress reactions. VT is a concept that was designed to provide a framework for understanding the negative effects of exposure to trauma on crisis workers, first responders, police officers, and public safety personnel whom work within the domain of trauma exposure. The attendee will learn the differences between defusing and critical incident stress debriefings and the importance for such support. Upon completion, the attendee will be able to potentially acquire, change, and utilize prevention and intervention skills (via CBT-reframing skills), targeting the array of trauma-based psychological, physiological, and behavioral reactions.

Seminar: From the Street to the Jail: How to Calmly Interact with the Bad and the Sad

Sponsored by Falcon

Description: Momentary lack of emotional control; impulsive reactions followed by later regret – experiences that are common to all people. For deputies and correctional officers alike, confronting individuals with severe character issues and exhibiting little self-control become the ingredients to potentially life-threatening situations. When the stakes are high and emotions are strong, staff may understandably struggle to communicate effectively and maintain their composure. Their best efforts may inadvertently produce greater hostility or violence from arrestees, resulting in significant liability issues. Overcoming the emotional strangles that occur when the brain is hijacked by fight-or-flight reflexes is essential for the restoration of safe and productive dialogues. Attendees of this workshop will review disruptive yet predictable behavioral patterns of arrestees, examine the physiology of fight-or-flight reactions, practice the elements of speaking persuasively and calmly when under duress, and apply sensible de-escalation strategies for safe and effective exchanges with unstable individuals. Taking information beyond theory, this workshop is designed to provide practical and well-defined diffusion and negotiation techniques, ensuring attendees leave with clear recipes for success.

Seminar: Keeping The Superheroes Super

Description: Public safety professionals are passionate about serving others; however, this calling can take its toll. High stress, low sleep, dealing with the worst of society and witnessing human tragedy reduces employees' mental/physical health. This class will explore the differences between stress, burnout and compassion fatigue and describe how to address each one, discuss why we all struggle to have balance in our lives and engage in regular self-care, detail what our "early warning systems" are, and describe specific strategies, tools and interventions that can be used by both individuals and organizations to foster healthy coping, balance and a positive mindset in employees

Speakers: Dr. Kimberly A. Miller, Psychologist & Consultant, Kimberly A. Miller & Associates, LLC; David A. Pearson, Lieutenant, Fort Collins, CO, Police Department & Kimberly A. Miller & Associates, LLC

Room: L005/L009

10:00 AM - 12:00 PM

Seminar: Suicide - Tactics and Strategies for Combating an Officer's Deadliest Threat

Description: Law enforcement agencies have historically allocated funds and resources to train their officers in policies, tactics and procedures that will enhance their safety. Yet the most lethal threat - suicide – remains largely in the shadows or an afterthought in training and education. Dr. McDougall will share his years of experience working with high-risk officers and the aftermath of suicides. Specific strategies and policies for preventing suicide and the psychological conditions that lead to such tragedies will be presented and discussed.

Speaker: Dr. Grant McDougall, Psychotherapist, Southeastern Counseling and Consultation, Gainesville, FL

Room: L007/L008

10:00 AM - 12:00 PM

Seminar: Recruitment and Retention of Deputy Sheriffs - Solutions

Description: We can all see that the new normal for the foreseeable future is difficulty in hiring and retaining enough qualified peace officers. This presentation includes details on how you can increase your recruitment and retention successes in the main arenas you have influence: (1) A recruitment campaign that includes an effective digital and social media strategy; (2) An internal approach that recognizes your best recruiters are your own employees and their success is everyone's success. Policing agencies of all sizes can learn and leverage new and viable strategies and solutions in the most competitive peace officer recruitment environment we have ever seen.

Speaker: Michael Parker, Commander (R.), Los Angeles County, CA Sheriff's Office & The Parker Group

Room: L010/14

10:00 AM - 12:00 PM

Seminar: 5G and the Future of Wireless

Sponsored by Verizon

Description: The next generation of wireless 5G packs tremendous promise and economic prosperity for the United States. As we embark on the Internet of Things journey, we now have a world with more connected things than the number of people on the planet. Now is a good time to get familiar with 5G technology capabilities, what it will offer and to assess how well-prepared we are for the 4th Industrial Revolution.

This session will discuss applicability and relevance of such wireless technologies and how it can be a game changer for the Law Enforcement community.

Speaker: Arvin Singh, Verizon, Sacramento, CA

Room: L016

1:00 PM - 2:00 PM

Seminar: School Guardian Programs - A Psychological Perspective

Description: Dr. McDougall will discuss his experience with numerous sheriffs' offices and school boards who have implemented school guardian programs. As a highly debated and controversial issue, the pros and cons of the program will be discussed. Special attention will be placed on the psychological components of the programs which range from the pre-training psychological screenings to the emotional and psychological

challenges of the program participants.

Speaker: Dr. Grant McDougall, Psychotherapist, Southeastern Counseling and Consultation, Gainesville, FL.

Room: L005/L/009

Seminar: A Comprehensive Overview of Highway Safety Effects of Longer and Heavier Trucks and Their Impacts on Local Communities

Sponsored by Coalition Against Bigger Trucks

Description: This moderated panel of experts will discuss the full scope of a hotly contested debate on Capitol Hill and in state legislatures over allowing longer and heavier tractor-trailers on American highways. Perhaps more importantly, the panel will discuss how law enforcement leaders are in position to lead the conversation and effectively deliver their professional opinion on bigger-truck highway safety to Members of Congress and state lawmakers so our representatives can make informed policy decisions.

Speakers: Sheriff Don Smith (R.), Member, Coalition Against Bigger Trucks Law Enforcement Advisory Board, Panel: Sheriff John Whetsel (R.), Chairman, National Sheriffs Association Traffic Safety Committee; Dave Heller, Vice President, Truckload Carriers Association; Brad Rosenberry, Vice President, Coalition Against Bigger Trucks, Alexandria, VA

Seminar: NGI Rap Back Service - Enhancing Public Safety One Notification at a Time

Description: Workshop Summary: The FBI Criminal Justice Information Services Division deployed the Next Generation Identification (NGI) Rap Back Service to assist local, state, and federal agencies in the continuous vetting of individuals in a position of trust. The Noncriminal Justice Community who have legal authority and meet policy and technical requirements utilize this service through establishing Rap Back subscriptions on persons in positions of trust for employment, licensing or volunteer work. The Criminal Justice community establishes Rap Back subscriptions on persons under supervised release or under current investigation resulting in immediate notification of any subsequent criminal activity by the subject. The submitting agency receives immediate notification if there is any activity on the identity history for a subscribed individual. This workshop will provide a high-level overview of how NGI Rap Back enhances public safety – one notification at a time.

Speaker: Lisa Vincent Stout, Supervisory MAPA, NGI Rap Back Service, FBI, Clarksburg, WV

Seminar: The Post Critical Incident Seminar: What You Can Do When Things Aren't Getting Better

Description: A critical incident is any event that results in an overwhelming sense of vulnerability and/or loss of control. These events include line of duty shootings, getting shot or seriously hurt on the job, high speed pursuits that end in tragedy, events that bring prolonged and critical media attention, and personal tragedies to name a few. Despite the best support immediately following a critical incident, there can be long lasting effects for some officers. What can be done to help them? Come hear a panel discussion about Post Critical Incident Seminars. What they are and how they can make a difference for your officers. Created by the FBI specifically for law enforcement, the PCIS offers officers a safe and effective method for post-incident training in critical incident stress. The PCIS can mean the difference between staying on the job or leaving the law enforcement profession due to the unresolved and unexamined effects of critical incident stress.

Seminar Sheriffs Can Generate Revenue from Background Checks – NSA ACCESS™ Program

Sponsored by B12 Technologies

Description: : The NSA, through an innovative partnership with BI2 Technologies, is implementing a new program to help Sheriffs across the nation generate funding to address the most critical problems in their counties by providing Sheriffs with a complete background check system (hardware, software, training and on-going service and maintenance). The Sheriff's Office will receive 25 percent of the net revenue from every background check until the system is paid for. After that, the Sheriffs' Office will receive 30 percent of the net

revenue on every background check conducted. The revenue created by these background checks will be provided to the local Sheriff each year in the form of grant funding to use to address the problems in their communities. B12 Technologies will also provide any participating Sheriff – again, at no upfront cost to the Sheriff or county – with its NSA-endorsed and cutting-edge Inmate Recognition and Identification System, I.R.I.S.™. I.R.I.S.™ technology uses the human iris (the colored part around the pupil) to accurately identify a person. I.R.I.S.™ is far more accurate than a fingerprint and results are provided within seconds. Sheriffs across the country are using this remarkable technology to better protect the public and their staffs. You know for sure who you have. And no Sheriff ever wants his staff to release the wrong person. The program and both systems – ACCESS™ and I.R.I.S.™ - will be demonstrated live during the session.

Speakers: Sheriff (R.) Peter Y. Flynn, Plymouth, MA and Sean Mullin, CEO B12 Technologies, Plymouth, MA
Room: L013

Seminar: Implicit Bias - What You Don't Know Can Hurt You

Description: Bias is a hot topic these days and it is often associated with a great deal of negativity and judgment. However, the truth is implicit bias happens outside of our consciousness and is a result of societal programming, not personal choice. This seminar will explore the foundations of bias, how we come to make certain associations, the reasons our brain is hard wired for bias and how our experiences reinforce our beliefs. We will also explore how we can become more aware of the biases we hold and detail the tools and strategies (both individual and organizational) we can use to change them. Finally, we will explore the relationship between bias, ethics and leadership and discuss how to lead in a way that improves influence and reduces liability.

Speakers: Dr. Kimberly A. Miller, Psychologist & Consultant, Kimberly A. Miller & Associates, LLC; David A. Pearson, Lieutenant, Fort Collins, CO, Police Department & Kimberly A. Miller & Associates, LLC
Room: L005/L009

Seminar: Deploying LTE for Mission-Critical Communications Benefits Agencies Operations

Sponsored by Cradlepoint

Description: County law enforcement officials need always-on network connectivity in vehicles and county buildings—such as in sheriff's headquarters, sub-stations, jails, and courts—because deputies need access to digital and connected technologies to address emergencies. These mission-critical networks help provide life-saving assistance and bring order to chaotic situations. Learn how pervasive network connectivity is

essential in enabling county law enforcement communications and how implementing an LTE strategy creates agency efficiencies, better response times, and officer safety.

What attendees will learn or take away from this session:

- The use cases for LTE network solutions in county law enforcement
- How in-vehicle networks enable mobile offices for officers
- How LTE solutions create agency efficiencies
- Strategies to rapidly deploy networks solutions to augment/extend existing networks

Seminar: The Norco Bank Robbery & Shootout:

Description: Norco '80 is the true story of the 1980 Norco, California bank robbery and shootout, one of the most important and violent events in U.S. law enforcement history. The story is about five heavily-armed men who attempted a takeover robbery that resulted in three dead, eight police officers and five civilians wounded, a sheriff's helicopter grounded by gunfire and 32 police vehicles disabled or destroyed by gunfire and explosives. Norco had an enormous impact on the way American police forces arm and train officers. The lessons learned are still used by law enforcement training academies today.

Advanced Roadside Impaired Driving Enforcement (ARIDE) Program

FREE 2 Day Sign-up Event

Not included with Expo registration - Must sign up in advance, see registration form

Description: ARIDE is intended to bridge the gap between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC/DRE) programs by providing officers with general knowledge related to drug impairment and by promoting the use of DREs in states that have the DEC program. The ARIDE program stresses the importance of the signs and symptoms of the seven drug categories. This seminar will train law enforcement officers to observe, identify, and articulate the signs of impairment related to drugs, alcohol, or a combination of both, in order to reduce the number of impaired driving incidents as well as crashes which result in serious injuries and fatalities. This seminar will educate other criminal justice professionals (prosecutors, toxicologists, judges, etc.) to understand the signs of impairment related to drugs, alcohol, or a combination of both, to enable them to effectively work with law enforcement in order to reduce the number of impaired driving incidents as well as crashes which result in serious injuries and fatalities. All participants must be SFST proficient, must pass SFST proficiency demonstration at time of entry into class, and complete the ARIDE registration form.
